DID THE RAFFLES ACT IN BROOK-LINE TO THE TUNE OF \$30,000.

Young Phillips Robbed the House of Society Friends and Gave the Alarm to the Police-Escaped From Reformatory and Stole a Minister's Automobile.

NEW HAVEN, Conn., July 25 .- When Sheriff Samuel H. Capen's letter was received from the House of Correction at Dedham, Mass., to-day by Chief James Wrinn of the New Haven police, telling Wrinn to look out for a prisoner who had escaped from the House of Correction on July 15, the chief sent a couple of his detectives to the New Haven county jail to look at nineteen-year-old Charles B. Carl-son. They found that Carlson is William R. Phillips, alias Herbert Miller, the prisoner wanted at Dedham, and one of the cleverest young rascals that have figured in police literature in New England in many years. He said he was the son of William R. Phillips of Lenox, Mass., a millionaire, and that his uncle was known as "Phillips the Corn King."

Last Monday night he came to this city and told John T. Cox, proprietor of a local garage, that he was a relative of the Rev. Dr. Henry Woods Baker, formerly pastor of Trinity Episcopal Church here, and added that Dr. Baker wanted to have him look over his \$3,000 automobile, then in Cox's care. He said that Dr. Baker was an intimate friend of his father. He gave the name of Charles B. Carlson. Cox let him have the automobile and also provided a chauffeur. That evening the young man drove to the residence of Prof. C. C. Clark, Jr. The family was away and Phillips broke into the house, filled a trunk with several silk dresses and other clothing and he and the chauffeur lifted the trunk into

They started for Springfield. When they reached Hartford they had to stop for repairs. When the machine was fixed up Phillips told the driver that he didn't need him any longer and he went on to Springfield in Dr. Faker's automobile alone. In the meantime Cox, becoming uneasy, telegraphed to Dr. Baker at the latter's summer home in Maine that he had turned the ministers' machine over to the stranger. Dr. Baker replied that he knew no such person, and Cox notified the police. Detective James Ward was sent after the thief and captured him in Springfield. While returning to New Haven in Dr. Baker's machine the detective and his prisoner were held up at South Manchester, Conn. by a town constable because they were going at an illegal speed through the town.

Detective Ward told the constable who

he was and the two were released. In the police court in this city the next day the prisoner was bound over to the Superior Court under bonds of \$1,000 under the name of Carlson. He had told the New Haven

of Carlson. He had told the New Haven police that he was the son of a wealthy lumber dealer of Portland, Ore, Word came from Hartford to-day that he had robbed a house in that city of clothing. Young Phillips told the New Haven detectives to-day after acknowledging that he was the person wanted at Dedham, that he escaped from there on July 15. He said he was serving a two year sentence for breaking into and taking from the house of Mrs. Eva Littlefield in Brookline. Mass., about \$30,000 worth of valuables. He claimed that his family and the Littlefields were very friendly and that he often visited there.

there.

Early this year, according to his story, his father refused to supply him with all the money that he thought he ought to have, and then his criminal career began. He said he joined a gang of young rogues near his home and became involved in a theft at the Hotel Toursine in Boston. His theft at the Hotel Touraine in Boston. His connection with that theft was revealed by the confession of one of the gang. He escaped prosecution for this crime. He determined after that to have nothing more to do with what he called "the gang of squealers," and he branched out on an independent tour of thieving himself. He claimed that about the middle of March, 1905, he and Mrs. Littlefield's daughter went driving, the Littlefield's daughter went driving, the Littlefields being ignorant of his escapades. He learned from her that the family was going away for a while and planned then to rob her home.

The day after the Littlefields left Phillips drove up to the Littlefield home in a swell turnout and entered the building. When he was ready to remove the \$30,000 worth of plunder he called an expressman.

worth of plunder he called an expressman, filled his wagon with valuables, keeping the jewelry himself, and ordered the expressman to deliver the stolen stuff at a hotel in Boston. To deceive the police he had this stolen property removed from one hotel to another in and near Boston. •He was another in and hear Boston. He was stopping at the Touraine, he says. When he was short of money he pawned two of the stolen diamonds for \$1.400. Knowing when the Littlefields were to return to Brookline he kept an engagement the had made with Mrs. Littlefield's daughter.

the had made with Mrs. Littlefield's daughter, appearing at the house the day of their return. He was in the house when the burglary was discovered, he says, and went after the police officials to bring them to the house to investigate. After a while the Boston police became suspicious of him because he was living high at the Touraine and it was known to them that his father was not giving any money to him.

When they came to arrest him he was in his bathtub at his hotel and escaped by going down the fire escape. He stole a suit of clothes out of a room in a hotel, but was soon after nabbed in the street by a detective and sent to the Dedham House of

but was soon after nabbed in the street by a detective and sent to the Dedham House of Correction for two years. On July 15, while at exercise on the grounds of the reformatory, he hid behind a couple of barrels when the other prisoners were ordered to return to the building.

He had contrived, while a prisoner, to make a suit of clothes out of bed clothing and he were it under his prison garb on this day. He vaulted from the top of the barrels over the wall of the prison removed.

barrels over the wall of the prison, removed his prison rig and threw it into the river. When he reached his mother's home he saw a detective in front of the house. He saw a defective in front of the house. He saw another one when he tried to get into the home of his grandmother in Boston. Then he went to Dorchester, got \$25 and a newsuit of clothes from a frien I and came

Monster Newspaper Combine Rumored. WASHINGTON, July 25 .- Information has reached the Post Office Department of a movement for a monster newspaper combine to make dailies out of weekly papers. A communication received at the Department says that "a newspaper scheme has developed which may prophesy new possibilities for the rural free delivery service. The scheme contemplates the printing of two pages of news in large cities each night, to be sent out on early trains for distribu-tion in rural communities.

President Will See Colored Church Folk

To-day. OYSTER BAY, July 25 .- To-morrow President Roosevelt will receive Bishop Hood of South Carolina and other clergymen of the African Methodist Episcopal Church. To-night the Bishop is conducting services here at the African Methodist Church.

Estimate of the Kansas Wheat Crop. TOPEKA, Kan., July 25 .- The Kansas City Star, after a canvass of 400 wheat growers and buyers in Kansas, says the total crop this year will be 75,000,000 bushels.

Lightbody Chicago A. A. Captain. Jim Lightbody, of the University of Chicago, has been elected captain of the track team of the Chicago Athletic Association. The team is to compete at the A. A. U. championships to be held in Portland, Ore., next month, Lightbody is the present champion and record-holder for the half mile and mile in the Western Conference Intercollegiate Association.

COTTON MILLS AT AUCTION. Trust Company of Baltimore Buys Southern Textile Properties.

The property of the Southern Textile Company of 27 William street, which was organized two years ago, with a capital stock of \$14,000,000 as a holding company to combine cotton mills in the South for the sale of their product through one house in New York, which is in bankruptcy here, was sold at auction yesterday by Charles Shongood, at 113 Leonard street, by order of Walter C. Cabell, trustee in bankruptcy. The three cotton mills, with machinery, were first sold separately and then as a whole. The Windsor Mill at Burlington, N. C., with twenty-nine acres of land and seventeen tenements, sold for \$25,000 to Robert L. Holt; the Chicora Mills at Rock Hill, S. C., with eight acres of land and twenty-four tenements sold for \$34,000 to N. M. Smith of this city, and the Moorhead Mills, with fourteen acres of land and twenty eight tenements, at Moorhead, Miss., sold for \$36,000 to Mr. Holt. The auctioneer then put up all the above property in one lot and it sold for \$110,500 to the International Trust Company of Baltimore. As the bulk sale realized \$15,500 more than the separate lot sale, the bulk sale was accepted by the trustee and will be submitted to the United States District Court for confirmation. Some merchandise materials and supplies of the mills were sold for \$3,600 to T. A. Blythe of Philadelphia, who claims a factor's lien on the goods.

Victor E. and William H. Whitner (Whitner Bros.) cigar dealers, at 1171 Broadway, have filed a petition in bankruptoy with liabilities \$10,206 and assets \$1,005. They have failed before. seventeen tenements, sold for \$25,000 to

KILLED FOR KICKING A DOG. Williams Struck His Fellow Watchman and Putanitz Is Dead.

PHILADELPHIA, July 25.—John Putanitz, a night watchman in a factory at Tenth street and Washington avenue, kicked the dog of Harry B. Williams, a fellow watchman, last night. Williams cursed and started for him. Putanitz got angry and tried to reach Williams first but Williams got a swing on Putanitz's jaw and the latter went over backward. His head struck the stone pave-

ment and at the hospital the doctors said his skull was smashed into bits. Williams finished up the watch, and then as he was leaving his post he heard that Putanitz was dead. He immediately gave himself up to the police.

"It was self-defense," he said. "I didn't mean to kill him. Anyway, he had no right to kick the pup."

CHILD SHOOTS HER FATHER. Picked Up a Gun With Which He Had Been Firing at a Target.

WINCHENDEN, Mass., July 25 .- Wilfred C. Smith, who, with his family, has been C. Smith, who, with his family, has been camping at Sip Pond, State Line, N. H., was fatally shot yesterday afternoon by his daughter Lillian. Mr. Smith had been practising target shooting. He laid down one rifle to try another. The little girl picked up her father's rifle and accidentally discharged it. The bullet passed through the base of Mr. Smiths brain. He was taken to a hospital in Boston.

TIMELY BOXING TALK. Critics Think That Britt and Nelson Should Come Together.

Jimmy Britt will be a very active pugilist within the next few months. There are no fewer than five lightweights waiting to get a chance at him, Battling Nelson in particular. Nelson has been trying to locate Britt for a match for some time, and the chances are that the fighting Dane will be Britt's next opponent. The pair, it is understood, have some sort of an agreement whereby they are to come together in a twenty round bout some time next month. The go was arranged some time ago, and it is reported that each has deposited a forfeit of \$2,500.

Nelson, ever since Britt whipped him, has

Nelson, ever since Britt whipped min, has been trying to get another crack at the Californian. Britt is a diplomat and has thus far been able to avoid Nelson without getting severely roasted for it. When Nelson came forward with his money after their last fight, Britt declared that he would not pay any attention to Nelson until he (Britt) had had a vacation. Nelson, believing that Britt was acting in good faith, let the Californian alone for a while. But Britt evidently had two strings to his bow, for he immediately signed articles to meet Kid Sullivan. The fight came off last Friday night at San Francisco, and Britt was victorious on points. It was expected as soon as the match was arranged that Britt would win. Sullivan, despite the fine showing he had made against Nelson and Young Cor-bett, did not class with Britt in point of skill

bett, did not class with Britt in point of skill and experience.

When Nelson faced Sullivan, who, by the way, made the Dane hustle throughout and should have received the decision on poiats, he was not in the best of trim. He came East ostensibly to figure in a few six round bouts, and kept his word. He was in fair condition, but not in the trim that he would have been had he contracted to engage in a twenty round mill in which a championship was involved. Sullivan's showing with Nelson really got him the match with Britt.

he would have been had he contracted to engage in a twenty round mili in which a championship was involved. Sullivan's showing with Nelson really got him the match with Britt.

Britt, according to all unbiased persons who follow the prizering, must meet Nelson before long or lose the prestige he has gained by beating both Jabez White and Sullivan. The Dane is entitled to a match, because he gave Britt the hardest mill of his career. In fact, at the end of the struggle the points were so evenly balanced that a draw would not have elicited any adverse comment. Britt is credited with being an able financier. Should he elect to meet Nelson it must be palpable to him that the bout would be a record breaker so far as the attendance is concerned. Nelson is second to Britt in popularity in San Francisco, and when the two come together the receipts should come pretty near being the largest fought for by little men.

There is only one stumbling block at present to a match between the two, and that is that Nelson would prefer to have the affair to a finish. Two clubs are willing to bid for a mill under these conditions, namely, the Reno A. C. of Reno, Nev., and the Colma A. C. of Colma, Cal. Not so long ago Jimmy Coffroth said that he was ready to hang up a purse for a fifty round bout between Britt and Nelson. He declared that the laws of California permitted him tod othis. Limited round bouts are allowed in that State, and by naming fifty rounds Coffroth would be well within the statute. It is difficult to see just now how Britt and Nelson, if they are matched, would be able to fight fifty rounds without scoring a knockout. Endurance fighting is Nelson's long suit, and under these conditions it is thought by many good judges that Nelson would be the victor. But Nelson should not let this interfere with a struggle, for even if he loses to Britt his share of the purse money would be large enough to compensate him for his defeat. At Reno pugliists can battle as long as they like, Marvin Hart and Jack Root met there on July

Watch for Negro Who Saved Frederick the Great Statue.

WASHINGTON, July 25 .- The State Department has received a silver watch and chain from the German Embassy for George Ellis, the negro who saved the Frederick the Great statue from destruction when Gessler Rosseau nuns a bomb on the fence surrounding the gift of the German Emperor. Ellis was a laborer in the navy yard here, and was the first to see the smoking bomb. He rushed to it and threw it as far away from the statue as possible. It exploded as it left his hands, knocking him down. as it left his hands, knocking him down.

The watch is accompanied by a letter expressing the gratification of the German Government for the negro's brave effort.

BROKER'S WIFE A SUICIDE.

MRS. GRACE MARSHALL KILLS HERSELF AT HER HOME.

Was a Daughter of George Starr, Once Emigration Commissioner of This State -Said to Have Resented Husband's Excessive Attention to Business.

Mrs. Grace Marshall, wife of Charles Marshall, a broker, shot herself through the heart in her home at the Raleigh apartment house at 7 West Ninety-second street shortly after 8 o'clock yesterday morning. She died almost instantly. Mrs. Marshall was a daughter of George M. Starr, former

She died almost instantly. Mrs. Marshall was a daughter of George M. Starr, former Emigration Commissioner of the State of New York. Her husband is employed in the offices of Wardwell & Adams, brokers, at 2 Wall street.

Mrs. Marshall was 34 years old and had been married for fourteen years. As far as could be learned her married life was a happy one until recently, when she became troubled by her husband's excessive attention to business. She especially resented the presence of a young woman stenographer who, it is said, has recently sjent several evenings in the Marshall apartment taking dictation from Mr. Marshall.

It was said by the servants that Mrs. Marshall aparently brooded over the loss of her husband's companionship until it affected her health. She seemed to have regained her spirits on the night before the suicide, but it is believed that she had carefully planned the deed. She had written a note to her husband and hidden his revolver under her pillow before retiring.

In the morning she waited until her husband had gone to the bathroom, and then laying the note on the dressing table lay down again and holding the pistol in her left hand pressed it against her heart and fired the shot.

The only persons in the apartment at the time were Mr. Marshall and the maid, Sally, who was in the kitchen. They ran in and found Mrs. Marshall lying on the bed, dressed in her nightgown, the pistol still grasped in her hand.

Dr. Michaels, of 3 West Ninety-second street was summoned, but when he arrived Mrs. Marshall was dead. The doctor at once notified Coroner Goldenkranz, who sent his physician. Dr. O'Hanlon. The

once nothing Coroner Goldenkranz, who sent his physician. Dr. O'Hanlon. The note left on the dressing table was given to the Coroner. Mr. Marshall had read it, however, and he told Dr. O'Hanlon that

DRAB CHARLEY: Don't let them blame you for anything that happens. GRACE."
There is said to have been another letter which was given to the Coroner, but he would not divulge its contents.

The Coroner gave a permit for the removal of the body, and a few hours later

the body was taken to the home of Mrs. Henrietta Starr. a grandaunt of Mrs. Marshall, who lives at 109 West Eighty-sixth

stret.

Mr. Marshall made a statement to the police in which he denied that a young woman stenographer had frequently visited his apartmets. He said that he could not believe that his wife's action had been premeditated and that he knew of no reason for her action. He said that he took his wife for a long tour in Mexico last winter and that her health seemed much

RACING ON THE CLYDE. Alfred Mylne's Moyana Wins in the Series -Sonya Outclassed.

Alfred Mylne's Moyana won the cup for points scored in the regettas during the Clyde fortnight, and his admirers must be very much pleased because the Moyana was built in 1903, and she proved herself a better boat than the Maymon, a Fife boat of last year; the Britomarte, a Mylne boat of this year. The Sonya, a Herreshoff boat of this year. The Sonya, a Herreshoff boat of this year. The Sonya, a Herreshoff boat of this year. The Sonya, 11. The Moyana won five races, was once second and twice third. The Maymon was three races, was once second and four times third, and the Britomarte won once, was six times second and once third. The Sonya finished second once and third twice. She started in seven out of the nine races.

The Sonya seems to be outclassed. At least she has made a very poor record so far, but her admirers say that in the races to come she will do much better. The Britomarte is in a peculiar position. She has beaten the Sonya, but while she has scored almost as many points as the Moyana, she won only one race. She beat both the boats that beat her at times, but when she finished ahead of the Maymon she was beaten by the Moyana, and when she beat the Moyana she was beaten by the Maymon, excepting in one race.

In the first race in a fresh-preeze from the south-southeast the Moyana beat the Maymon over a course forty-one miles in length, beating the Britomarte 3 minutes 24 seconds, the Sonya 5 minutes 38 seconds and the Moyana 6 minutes 4 seconds. This race was sailed in a pood breeze.

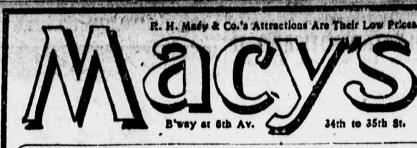

On the third day the Maymon won over a thirty mile course. She beat the Britomarte 2 minutes 32 seconds in the Sonya save up. The fourth race was won by the Moyana by 42 seconds. The Sonya was second and the Moyana 3 minutes 42 seconds. The Sonya gave up. The fourth race was won by the Moyana beat the Britomarte 2 minutes 50 seconds and the Sonya gave up. The fourth race was won by the Moyana heat the Moyana 3 minutes 50 seconds and the Sonya gave up. The fifth race was won by the Moyana heat the Britomarte 1 minute 24 seconds, the Moyana 3 minutes 50 seconds and the Sonya gave up. The fifth race was won by the Moyana heat the Britomarte 2 seconds. pleased because the Moyana was built in 1903, and she proved herself a better boat than the

ana 3 minutes 50 seconds and the Sonya gave up.

In the Royal Western Regatta the Moyana won, beating the Britomarte 25 seconds, Maymon 2 seconds and the Sonya had to retire because of an accident. In the Clyde Corinthian race the Moyana won, beating the Britomarte 56 seconds, Maymon 2 minutes 19 seconds and the Sonya again withdrew.

The Moyana won the race of the Royal Clyde Yacht Club, beating the Britomarte 4 minutes 4 seconds, Maymon 8 minutes 11 seconds and Sonya 10 minutes 1 seconds in the last regatta on the Clyde the Britomarte won, beating the Maymon 4 minutes 49 second, Moyana 5 minutes 44 seconds. The Sonya did not start in this race.

The Sonya sprung her hollow mast again and is now being got ready as fast as possible for the racing off Cowes.

RUSSIAN GREEN GOODS MACHINE SEIZED BY POLICE.

.82 Note Cooked In It for a While Was \$3,000 to Lose Leads to Two Arrests.

Square Park when Ike Pearlman sat down by him and began to talk socialism. Both men are Russian Jews.

"There are a few good fellows in this country," said Pearlman, "but mostly everybody is out to do everybody else. After a while he said he had invented a machine by which he could make a lot of money if he could only get the ncessary capital to work it. Holden asked about the machine, but Pearlman would only show it to a man who had at least \$3,000. Holden has a brother-in-law, L. Liebman, a decorator, who has some money, and

agreed to produce him the next day. Holden and Liebman met Pearlman by appointment in Tompkins Square, and Pearlman, they say, brought Harry Bourn along. Pearlman and Bourn then explained, it is alleged, that the machine was an electrical contrivance by which paper money could be duplicated at trifling cost. The machine would print two facsimiles of any bill, but was designed especially for yellowbacks, whose color lent itself to

for yellowbacks, whose color lent itself to the process.

Liebman says he pretended to be interested and asked to see the machine, and the next day Pearlman and Bourn brought it to his place, at 411 West Sixtieth street. One of them carried it in a square case swung from his shoulder by a strap. In the ceilar they uncovered the machine. The operators took a new \$? bill, folded oilskin about it and with a brush pretended to apply various chemicals which they had in small vials. Then two sheets of, white paper cut the size of a bill, were laid on the skins and the sandwich was put in a compartment in the bottom of the machine. One of the operators turned a switch and the machine began to buzz. In a few moments the current was turned off, and when the compartment was opened there lay three two dollar bills.

When the machine and materials had been repacked the whole party went out and got on a car. Pearlman, paid the fare with one of the new bills just to show how good it was.

good it was. Liebman made a date for another meeting and notified the police. Detectives McConville, McKenna and O Farrell em-McConville, McKenna and O'Farrell employed Louis Kramer as a decry and furnished him with some green goods sandwiches with genuine new \$20 gold certificates on the outside. Mrs. Bessie Kupferman of 74 East 105th street was induced to lend the use of her apartment for the meeting, which took place yesterday. Kramer was to have \$3,000 with him, from which \$6,000 in new money was to be pro-Kramer was to have \$3,000 with him, from which \$6,000 in new money was to be produced. The detectives broke in on the meeting before any money had passed, but they locked up Pearlman and pourn for attempted swindling. The prisoners declared they knew nothing about the machine and that it was in the room when they came in. It was just a dry battery and a buzzer in a tin box.

The prisoner Bourn told the police that he used to be employed by Capt. Flynn, chief of the Secret Service in this city.

Stay No Surprise to Patrick.

Ossining, July 25.-The order of Judge Dennis O'Brien in the case of Albert T. Patrick, who is in the death house here for the killing of William M. Rice, was served on warden Johnson this morning. He personally notified Patrick of the granting of the stay, and the latter said that while he was pleased over the good news, he had he was pleased over the good news, he had expected all along that the order would be granted

THREE CUPS FOR MOTOR BOATS International, National and Interstate Trophies Offered. Three challenge trophies for power boats

have been offered by the National Associa-tion of Engine and Boat Manufacturers, and they will be raced for at the carnival which is to be held on the Hudson River off the Colum-Three 52 Notes When the Oven Was | bia Yacht Club house in September. They Opened-Search for a Victim With are the international, national and interstate trophies.

The international trophy is for competition Louis Holden was sitting in Madison between boats of any recognized yacht. motor boat or automobile club in the United States and of any other country. The others are for yachts enrolled in clubs in this country. They are to be held subject to challenge and be raced for between May 30 and Oct. 1, at a date to be fixed by the association. All race are to be held on the Hudson River at a place selected by the race committee. To insure a contest one challenge must be delivered at least three months before the date of the contest, and other clubs may challenge and enter the same contest on the terms proposed and accepted in the first challenge up to ten days before the race.

A contest is to consist of three races. The

courses are to be not less than 18 miles not more than 40 miles. The courses are to be in deep water as free from turns as possible The races are to be governed by the rules of It would seem that the Manufacturers'

Association has started in as a rival of the American Power Boat Association. It has framed a set of racing rules, measurement rules and a table of time allowances, but whether these will find favor with the owners of racing motor boats remains to be seen. have give satisfaction, and one of the beautier of their rules is that a low powered boat has a fair chance of winning from a high powered racing machine. This, of course, has caused some dissatisfaction with those manufacturers who have raced high powered boats to advertise their engines, but the manufacturers do not dominate the sport of motor boat

is forty-nine times the square root of length multiplied by the cube root of the horsepower divided by weight. Length is the
waterline length of the boat.

The boats are to be classified according
to their ratings as follows: Division 1—High
speed motor boats. Class i includes all boats,
length over all, 12 meters, or 39,37 feet, excepting boats with keels laid before July
1, 1905, to be eligible length over all feet 40 or
under. Class 2 includes all boats length over
all 40 feet and above. Class 3 includes all
boats length over all 33 feet and under.
Division 2—Cruisers—Class 1 includes all
boats length over all 50 feet and above; class
2 includes all boats length over all 50 feet and
under. multiplied by the cube root of the ho

The rule of measurement of this association

boats length over all 50 feet and above; class 2 includes all boats length over all 50 feet and under.

Division 3—Open launches. Class 1 includes all boats in length over all 50 feet and under.

All boats of class 1, division 1, have no restrictions as to power or beam but are required to be of a seaworthy design and constructed of sufficient strength to pass through a race without showing a pronounced structural weakness. All boats of division 1, classes 1 and 2, shall be required to have at least 22 inches freeboard. Boats in division 1, classe 3, are to have at least 18 inches freeboard.

Horse power is to be determined by multiplying the area of the cylinders in square inches by the number of cylinders, multiplied by a constant. Boats in division 1, class 1, have no restriction as to motor power. Boats in division 1, class 1, have no restriction as to motor power. Boats in division 1, class 1, the constant for boats of class, 1 division 7, the constant for boats of class, 1 division 7, the constant will be 18 for four cycle motors. The constant will be 18 for four cycle motors, and 13.5 for two cycle motors. In class 2 of that division 3 the constant will be 18 for four cycle motors. The international trophy will be for boats of division 1, class 1, the motors and 11.25 for two cycle motors. The international trophy will be for boats of division 1, class 1. That is, they must be boats 39.37 feet over all, and there are no restrictions as to power. The British International Cup is for boats 40 feet in length, with no restrictions as to power. The national trophy is for boats 40 feet in length, with no restrictions as to power. The national trophy is for boats 40 feet in length, with no restrictions as to power. The national trophy is for boats 40 feet in length, with no restrictions as to power. The national trophy is for boats 40 feet in length, with no restrictions as to power. The national trophy is for boats 40 feet over all and above, and the interstate trophy is for boats 33 feet trophy is for boats 40 feet over all and above, and the interstate trophy is for boats 33 feet ever all and under.

In the old Stewart Building

And we prefer to

make special prices for many of our heavy and best pieces rather than take them down, move over and re-erect in the new Wanamaker building soon to be opened.

This sale begins next Monday morning.

USED AUTOMOBILES Snaps for Shrewd Men

We have a group of second-hand cars, nearly all of which are demonstration cars-never out of the hands of our own men-in excellent condition-offering the purchasers all the power and service of new cars, at savings in cost of from \$200 to \$600. We're making a radical clean-up of every used machine we have. Included are two Fords and two Premiers of this year's models. Here is the list:

1905 12-horse Ford Car, \$1,000, now at \$800.

1905 20-horse Ford Car, \$2,000, now at \$1,400. 1904 10-horse Ford Car, \$900, now at \$400.

1905 16 horse Premier Car, \$1,500, now at \$900.

1905 16-horse Premier Car, \$1,500 (shop-worn only), now at \$1,200. Also a superb new 40-horse Premier Landaulette (Quimby body), \$5,350, now at \$4.000.

And a used 1902 four-cylinder 15-horse Mors, canopy top, \$7,000, now at \$2,000.

It's a collection not to be missed by any man contemplating the purchase of a car.

Salesroom in Basement of our New South Building, And in Old Guard Armory Building, 1623 Broadway.

Fifty-one Foreign Coats and Wraps At Half Price

Our selling season is over. Inventory comes on the last day of this month. That is why this group, composed of the most exquisite and beautiful garments for women to be found in the country today, is offered at just half the real value.

Of course, this announcement does not interest women who have already gone on their Summer vacations, and who probably paid double for similar garments, but it does interest immensely the women who are just preparing for their Summer vacations, and who may now take along with them wraps of equal elegance to those that will be worn by the women who went earlier, and yet these now cost just half as much.

The Coats and Wraps are made of rich laces, silks and linens, in the most beautiful styles, and exquisitely trimmed. Former prices ranged from \$21 to \$160.

Now \$10.50 to \$80 Second floor, Broadway.

Anderson and Nicholls in a Gate Money Match.

There is to be a match between Will Anderson, the open champion, and Bernard Nicholls to-morrow at the course of the Auburn Park the gate receipts, the admission being a half This is the public course at Rochester, where the park commissioners permit the Auburn club certain privileges, just as the New York Golf Club has the privilege of laiming the Van Cortlandt Park links as its

It will be the first match not free to club members and their friends to follow since Harry Vardon was here in 1900. When he played the Yale students at the New Haven Golf Club there was a fee of \$1 each to go on the links, those who paid receiving a badge, which they had to display on the coat. An admission fee was charged on one or two other occasions when Vardon played here.
"If the clubs would all charge an admission fee to the links and let the public in." said Rochester, "there would be more interest in such contests and the public would appreciate the opportunity of seeing good golf on private

There are only three gate money matches There are only three gate money matches on record in Great Britain. The first was in 1892, between Jack, White, later open champion, and Douglas Rolland, at Chesterfield Park, Cambridge. Not only the spectators but the reporters and umpire had to pay admission. In 1899 there was an admittance charge when Harry Vardon and J. Dalgleish played at Nairn, and also in 1900, when A. Kirkaidy and W. Auchterlonie had a match at Strathperfer.

As nearly all of the Metropolitan Golf Association executive committee are to be at the tournament of the Shinnecock Hills Golf Club, to-morrow, Friday and Saturday, and the Fox Hills committee will also be represented there, it is expected that a final decision will be made regarding the open champlonship of the M. G. A. Last winter the delegates voted to hold an open champlonship if a club could be found to finance it. The Fox Hills Golf Club promptly volunteered, and in May it received permission to hold the tournament on Sept. 14-16, open only to clubs employed et M. G. A. clubs. There is now a pressure from eutside pros to have the conditions

changed so that they may enter. This may be settled finally at the Shinnecock Hills

by settled finally at the Shinnecock Hills tournament.

As M. G. A. professionals have gone on three times and won the open championship of the Western Golf Association the professionals of the latter organization have a good right to demur at being barred from the Eastern event. There is no doubt but that an open to all, with liberal prizes, will draw a great field, and also do much to stimulate interest in the national open championship, to be held at Myopia two weeks later. It will doubte the number of entries at Myopia, for the Westerners would not come on in force for the latter contest alone.

Entries for the Shinnecock Hills tourna-Entries for the Shinneoock Hills tourna-ment close to-night and may be sent by telegraph. There has been a limited distri-bution of the invitations, as those first sent out were null and void on account of an error in the dates, and there was not time enough to get a fresh batch ready. There will be a good entry, and to some the tourna-ment will be the public trial for the a mateur championship at Wheaton on Aug. S.

ALTER POUGHKEEPSIE COURSE Rowing Stewards Will Move Boats Out From Present Positions.

The stewards of the intercollegiate rowing association will make a change in the course rowed over at Poughkeepsie at their coming meeting. Hereafter, the crews coming meeting. Hereafter, the crews all will pass under the second span of the bridge out from the bank instead of the one nearest the shore, and all the courses will be that much further out. This change is caused by the tide effects on the Hudson. For instance, when the varsity eights race was started at Poughkeepsie this year corneit had almost all the advantage, while the current inshore on the changing tide bore against Columbia. As a result the New Yorkers lost two lengths in the first quarter nile on the field and were put hopelessly out of the race.
